
Title: Ultima Underworld II - Labyrinth of Worlds

Author: Hands of Virtue

During the final battle
with the Guardian's
forces the Avatar
destroyed the Black Gate.
While it prevented the
Guardian's invasion, it
also trapped the Avatar
in Britannia with no way
to return to Earth.

To commemorate the
defeat of the Guardian
one year ago the Avatar
and the leaders of
Britannia are invited to
Lord British's castle for
a celebration. However
festivities are cut short
when the Guardian strikes
again... A powerful spell
encases the castle within
a blackrock dome.

Searching for an escape
the Avatar uncovers a
smaller version of the
blackrock gem - each
facet a portal to another
world under the
Guardian's domination.
Unless he can break the
Guardian's control over
these eight worlds and
weaken the dome enough
to break free, all of
Britannia will be at the
Guardian's mercy.
